1. READ and WRITE

a. In groups of three, you will study one of two well-known ice mummies: THE ICEMAN. You will prepare a dialogue as if you were the experts. The dialogue must contain the following three characters: the team leader who supervises the study, the radiologist who reads X-rays, the pathologist who investigates physical lesions.

b. Your dialogue must include the following questions, as well as their answers:

- Where was this mummy found? How old is it?
- What do we know about this mummy’s age, gender, religion, cause of death?
- Explain how scientists know this information.
- Describe the artifacts found with the mummy. What did they reveal?
- Describe physical characteristics or marks on the mummy. What do they reveal?
- What other facts have archeologists concluded about this person’s life or death?
- What has the mummy revealed about its society?
- What technology was used to study this mummy?
- What questions remain unanswered?
c. Use the following Web Sites addresses:

**ICEMAN**
