Writing Activity

Write a four-paragraph essay “comparing and contrasting” two of the American countercultures you searched for in Activity 4. Follow the guidelines that appear under http://ares.unimet.edu.ve/idiomas/fqin04/writ.htm that tell about format and style at the time of typing your final paper, the same way you did for your first essay. This time, however, you will be using at least 6 of the following adverbials: similarly, likewise, like, in the same way, just as (to express similarities) and unlike, in contrast, whereas, while, despite the fact that, although (to express differences). In case of any doubt, you can check your textbook for reference: Unit 5, “What is Lost in Translation?”, Comparison and Contrast Essays (a sample).
